

INFORMED CONSENT FORM

- You are invited to take part in a research study titled "LLM-Based Translation of Personality Traits into Avatar Body Language". By agreeing to participate, you confirm that you are at least 18 years old and that your participation is voluntary. During the study, you will view pairs of short, silent animations (GIFs) depicting avatars performing various gestures. After viewing animations, you will be asked to compare both avatars' personality traits (such as extraversion, agreeableness, and emotional stability) using a standardized questionnaire. After each answer, you will be asked your confidence level.
- The study is conducted entirely online, and no personally identifying information will be collected. All data will be stored anonymously and used solely for scientific research purposes. You may withdraw from the study at any time by simply closing your browser window.
- You may withdraw from the study at any time without providing a reason, and you may request that your data be removed. After providing consent, participants proceed directly to the experimental task. Upon completion of the study, participants will be shown a brief debriefing statement explaining the purpose of the research and how the collected data will be used. Participants are also reminded that their data have been stored anonymously and that they may contact the researchers if they have any questions or concerns.
- You must not be currently enrolled in any course taught by Prof. Dr. Uğur Güdükbay.

Supervisor: Prof. Dr. Uğur Güdükbay
